

Managed Detection and Response

Focus on your business and let Bridewell deliver a leading 24/7 managed threat detection and response service, built around Defender for Endpoint and the entire unified Microsoft and Defender XDR platform.

Managed Security Operations

Bridewell's Managed Detection and Response (MDR) service provides real-time, customer-optimised threat detection, response and remediation, enabling the rapid containment and remediation of cyber attacks.

Offering integration into Defender for Endpoint, through to the full Defender XDR suite, Bridewell's MDR service offers the most complete detection and response service on the market.

What's Included

- **XDR Technology** – A managed detection and response service capable of supporting the full Microsoft Defender XDR suite
- **24/7 Detection & Response** – Highly skilled analysts with eyes on glass 24/7 for triage and rapid response
- **Threat Hunting** – Proactive hunting to identify threats already within the environment
- **SIEM/SOAR Enhancement** – Develop new content and capabilities around the Azure Sentinel Cloud Native SIEM and SOAR
- **Vulnerability Management** – Using Defender for Endpoint to track, manage and prioritise remediation based on risk

Solution Outcomes

- Maximise Microsoft investment and reduce third party security vendor costs
- Integrate into an existing security stack for visibility and automation
- Instant 24/7 security operations coverage
- We work with you to support compliance frameworks that require security monitoring

What Our Customers Are Saying

“Bridewell have been exceptional. We have quickly moved from an operation that is fighting noise with the incumbent, to having actionable incidents and increased visibility.”

About Bridewell

Bridewell is the trusted cyber security partner for organisations operating within Critical National Infrastructure (CNI), as well as companies who want the highest standard of cyber security. Our team are highly accredited by major industry bodies and have extensive experience of delivering cyber consulting and managed security services across highly regulated sectors. As a long-standing Microsoft partner, our team are experts in maximising the effectiveness of Microsoft Security technology to deliver robust and effective solutions.

We have a deep understanding of the challenges faced by CNI organisations and how to resolve them. We work in continuous partnership with our clients to implement the right security solutions to defend and protect them against threats and attacks, allowing them to continue operating safely and securely.
